Camp Builds Strong Kids
WREN Summer Explorers is an action-packed summer experience where confidence is created through skill development and new friendships are the results of teamwork. The camp community promotes an environment of nature exploration, dreaming big and daring to be all you can be. Summer camps is an experience that shapes a kid’s character and life by providing a safe, controlled environment where kids are able to make their own decisions.

Our Leaders Guide Campers to Reach Their Full Potential
WREN Summer Explorers maintains a 1:5 staff to camper ratio to ensure camper safety. The staff is comprised of role models who are dedicated to guiding your child’s emotional, physical, and learning development while at camp. Our staff will build confidence in kids by encouraging them to try new activities, guide kids in making new friends by modeling what a friend should be, and build their character by modeling honesty, respect, and responsibility. Our staff are well-versed in the natural and cultural history of Wallowa County. Your kids will leave camp with a deeper sense of this amazing place.

Health & Safety
The health and safety of each child is our primary concern. Staff is trained in first-aid and CPR and have gone through extensive background checks. They place heavy emphasis on accident prevention and carry SPOT devices and satellite phones when away from cell coverage.

Expectations
WREN Summer Explorers is a fun and educational. Each student must come ready to participate and learn. They also need to come prepared to be outside in all types of weather.
